TECHNOLOGIES

When moving around you create static electricity, but our fabrics prevent the garments from sticking to your body. To avoid your garments from being static, please do not tumble dry.

DryForze keeps you comfortable during the game! With the unique DryForze treatment, we ensure maximum comfort. DryForze makes the fabric perspiration transporting, quick drying and super pleasant to wear, and the DryForze capabilities will stay with your clothes for much longer than similar technologies. Fabric treated with DryForze has high breathability and a cool wearing comfort.

MEASUREMENT GUIDE

How to choose the right size?

If your body measurements for chest and waist do not correspond with the same size, then choose the size which is closest to your chest measurement. If you are in between to sizes, then choose the smallest size for a tight fit or the bigger size for a loose fit.

When it comes to playing padel, choosing the right footwear is just as important as choosing the right racket. That's where FZ FORZA padel shoes come in. Designed specifically for the unique demands of padel, our shoes offer the perfect combination of support, stability, and comfort on the court.

With features like our Lat technology and external heel counters, FZ FORZA padel shoes offer unparalleled lateral stability and support. This means you can move quickly and confidently, without worrying about twisting an ankle or losing your footing during a fast-paced rally.

So if you want to take your padel game to the next level, don't underestimate the importance of quality footwear. Choose FZ FORZA padel shoes and step onto the court with confidence.

SHOES

FZ FORZA padel shoes are designed with top-of-the-line materials and features to provide maximum performance on the court.

Different colors available

FZ FORZA padel shoes feature advanced cushioning technology, breathable materials, and ergonomic designs to ensure your feet stay comfortable and protected throughout even the longest matches.

FZ FORZA padel shoes are made with durable materials and features like reinforced toes and sturdy outsoles to withstand the rigors of intense play.

ACE PADEL M

FZ230022 | COLOR: 2146 DIRECTOIRE BLUE
SIZES: 37-46

Ace Padel is for players who want a great feel with the ground. The Lat feature enhances durability and lateral stability of the forefoot, and we added an external heel counter to create stability at the heel. With our Tuck board, you also get torsional flexibility that supports the foot's natural movement.

TECHNOLOGIES

BRACE PADEL

FZ220021 | COLOR: 2008 FRENCH BLUE
SIZES: 37-46

Brace Padel is a shoe made to give protection. With the specialized X-tech design, it provides protection at the heel, and the ASE feature gives you a lighter and stronger shoe, but it still supports your arch and helps prevent torsion. Lastly, this shoe has FZorb technology which increases comfort.

TECHNOLOGIES

BRACE PADEL W

FZ220022 | COLOR: 2061 AQUARIUS
SIZES: 37-42

Brace Padel is a shoe made to give protection. With the specialized X-tech design, it provides protection at the heel, and the ASE feature gives you a lighter and stronger shoe, but it still supports your arch and helps prevent torsion. Lastly, this shoe has FZorb technology which increases comfort.

TECHNOLOGIES

“ Padel is a high-impact sport that involves sudden changes of direction, jumps and slides. The right padel shoes can prevent injuries and improve your game. ”

- Juan Martín Díaz

LAT

The lateral stability technology enhances the durability of the shoe and the lateral stability of the forefoot during intense and rapid change of direction. Lateral stability is important in a badminton and padel shoe when moving quickly around on court from side to side.

X-TECH

The ankle is exposed to twisting with the many sideways motions in padel. A twist in the ankle is one of the most common injuries in padel, but with the evolutionary FZ FORZA X-technology the stability of the ankle is increased which prevents/reduces the twisting of the ankle.

FZORB

FZorb is a fantastic material for shock absorption. By molding the FZorb into the heel-area of the sole, it decreases the force of the many hard shocks that player's feet are exposed to during the game, as well as providing increased comfort for the player.

ASE

By inserting this light weight TPU piece under the arch creates both a lighter and stronger shoe, but also more stable. ASE supports the arch and helps prevent pronation and torsion in the shoe for increased functionality and comfort.

TUCK BOARD

Our Tuck Board increases the shoe's torsional flexibility. Torsional flexibility supports the foot's natural movement and allows the foot to move faster. Our Graphite Tuck Board is made of three-dimensional graphite fiber sheets that support the torsional movement and reduce stress on the arch tendon.

100% GLASS FIBER

Glass fiber rackets are a good alternative to graphite rackets. You will get a durable racket were the material helps you control your stroke a lot.

COMPOSITE GRAPHITE

Composite graphite is a combination bewteen graphite and glass fiber. The frame is graphite and the surface and hitting area are both glass fiber.

100% GRAPHITE

These rackets are made of 100% graphite in as well frame as hitting surface. Graphite gives the player a very good playability and is the basic material of all middle and high end rackets.

3K GRAPHITE

The 3k woven graphite rackets also consists of 100% graphite. The benefit of the 3k woven graphite makes the racket stronger and more durable.

12K GRAPHITE

A 12k graphite is a tight woven graphite which creates a really high graphite quality and gives players a really good racket with perfect playability and durability.

18K GRAPHITE

The top quality for padel rackets. Best graphite, best durability and best playability. The best material you can get!

SOFT EVA

A soft EVA means that the EVA foam inside the racket is quite soft. This gives the player a really good touch and nice feeling when playing.

The logo for 'HARD EVA' features a stylized tennis racket head icon to the left of the text 'HARD EVA', which is underlined.

Rackets with hard EVA inside insure that the touch is very fast and accurate. Here the player has good chances of hitting the ball hard and with lots of power.

The logo for 'X-SPIN' features a stylized tennis racket head icon with an 'X' inside to the left of the text 'X-SPIN', which is underlined.

The rackets marked with the “x-spin” logo all have a more rough surface than basic rackets. This gives players a better chance to “grab” the ball and create a lot of spin while playing.

The logo for 'X-PROTECTION' features a stylized tennis racket head icon with an 'X' inside to the left of the text 'X-PROTECTION', which is underlined.

If “x-protection” is marked on the racket it means that an extra frame protection is added on top of the frame from production. This protection helps to protect the racket when hitting the ground or wall.

The logo for 'HEAD LIGHT' features a stylized tennis racket head icon to the left of the text 'HEAD LIGHT', which is underlined.

The head light rackets gives players a very easy handling and really nice feeling. Your movements are faster, and this helps your control while playing.

The logo for 'MEDIUM BALANCE' features a stylized tennis racket head icon to the left of the text 'MEDIUM BALANCE', which is underlined.

Medium balanced rackets are a balance between the optimized handling from head light rackets and the more powerfull head heavy rackets.

The logo for 'HEAD HEAVY' features a stylized tennis racket head icon to the left of the text 'HEAD HEAVY', which is underlined.

The head heavy rackets gives the player maximum power. When hitting the ball you will create more power with a head heavy racket.
